Governors reports 2015/2016

Health and safety report from Mr Ogden 17.12.15

Dear parents,

"An external and internal Health and Safety periodic inspection was carried out recently, following on closely behind an interior inspection walk by our School Council.

Two items of note are the road surface at junction of Rowlands Road and School Lane and to monitor the Delph area more frequently during winter weather.

We are to look at suggestions received for school tidy monitors, the use of the Play Zone before and after school and for new lunch tables that would be easier to set out and store.

The Governors congratulate and thank the Health and Safety council for their excellent work on the Health and Safety Walk and looks forward to more contributions. I am really pleased our children take an interest in matters of safety and tidiness."

Regards,

Stephen
